Start with the features you need
- **Expandable**  
Add features and capabilities as needs dictate
- **Flexible**  
Protect existing RIP investment

Navigator RIP Manager helps increase productivity, manage your workflow, and reduce costs.

With an easy-to-use graphical user interface, Navigator RIP Manager allows operators to manage and control jobs from virtually any prepress workstation. It allows operators to design and store specific workflow sequences and reduces the opportunity for human error.

Navigator RIP Manager's PDF option allows for greater control over PDF file management and creates industry standard PDFs as the intermediate file format.

Your investment in Navigator RIP Manager includes not only the software, but the expertise to make the solution successful in your business. Xitron partners are trained and certified to support Navigator RIP Manager.
